Presidents Corner

Hi all, let me first apologize for the absence of the newsletter for the past several issues. I believe that my PC is finally disease free. With this issue of the newsletter you will notice some changes. Starting this year there will be only four issues. They will be winter, spring, summer and fall. You will also notice that the Officers have shuffled slightly. I'll do my best to keep the newsletter on schedule. If anyone would like to contribute an article, feel free to contact me or another Officer in the club. On a much sadder note everyone please keep George Heitz and his family in your thoughts and prayers for his recent loss.

Dash Plaque Sponsor Usher's Auto Repair

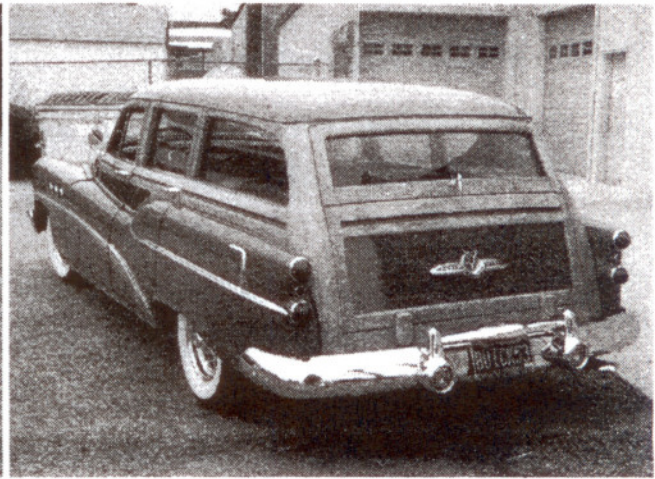

Downtown Millville 2011

The 21st annual Downtown Millville Car Show took place as scheduled on August 13th 2011. Even competing with surrounding area shows, this summer family event brought just shy of 300 show cars. The variety and uniqueness of the vehicles displayed this year was outstanding. I don't think there was a body style that was not represented. From Classics to Customs or Muscle Cars to exotics there was a car or truck to satisfy your interest.

In addition to the Car Show, there was plenty of fun for the entire family. Entertainment ranged from fifties doo wop, Corky's Time Machine, Cumberland County Martial Arts, performing their martial arts demonstration and play areas for the kids. Also in attendance was Millville Motorsports Park with their racing display, several automotive and Hot Rod displays and venders selling everything from food to automotive literature. And don't forget that all of this takes place in the heart of the Glass town Arts District.
